Education

United College of Engineering and Research

B.TECH CSE

2019 – 2023

Prayagraj, Uttar Pradesh

M.J.R.P. Public School

Senior Secondary(XII)

2018 –2019

Ghazipur, Uttar Pradesh

Technical Skills

- **Languages:** Java, JavaScript, Python
- **Frontend:** React.js, HTML5, CSS3, Tailwind CSS
- **Backend:** Spring Boot, Node.js, REST APIs, JWT Authentication
- **Database:** MySQL, PostgreSQL
- **AI/ML:** LLM Integration (Gemini API, Groq API), Prompt Engineering, Resume Parsing
- **Tools:** Git, GitHub, VS Code, IntelliJ IDEA
- **Concepts:** Data Structures and Algorithms (DSA), Object-Oriented Programming

Projects

AI Job Search Platform | *React.js, Spring Boot, PostgreSQL*

2026

- **Links:** GitHub Frontend | GitHub Backend | Live
- Developed an **AI-powered job search platform** to match candidates with relevant job opportunities.
- Built an **AI Resume Engine** using Gemini API with Groq fallback to extract skills and generate summaries.
- Implemented **predictive match scoring** to calculate compatibility between user profiles and job requirements.
- Integrated **Adzuna API** for real-time job listings with dynamic filtering.
- Designed a **secure authentication system** using Spring Security and JWT for stateless sessions.
- Engineered a **scalable backend** with Spring Boot and PostgreSQL, along with a responsive React-based UI.

Mapify | *React.js, Spring Boot, PostgreSQL, Leaflet*

2025

- **Links:** GitHub Frontend | GitHub Backend | Live Site
- Built a **full-stack real-time location sharing app** using **React.js** and **Leaflet** with interactive map visualization.
- Developed secure **Spring Boot REST APIs** with **JWT authentication** and **PostgreSQL** for user and location data management.
- Integrated frontend and backend for **live location updates**, friend requests, and secure API communication.

Weatherify | *React.js, OpenWeather API*

2025

- **Links:** GitHub | Live
- Developed a **React.js weather application** using the **OpenWeather API** for real-time data fetching.
- Implemented **city search functionality** to provide instant weather updates.
- Designed a **responsive UI** with clear weather visualization and error handling.

Expense Tracker | *React.js*

2025

- **Links:** GitHub | Live
- Built a **React-based expense tracker** for adding and managing daily expenses.
- Implemented **dynamic chart visualization** to analyze spending patterns.
- Used **local storage and state management** to persist data across sessions.

Certifications

- **Core and Advanced Java**
- **MERN Stack**

United College of Engineering and Research

Digipodium

Achievements

- **5 star** in Python, Java, SQL on HackerRank.
- **150+** coding challenges across HackerRank, LeetCode, GeeksforGeeks, and CodeChef.
